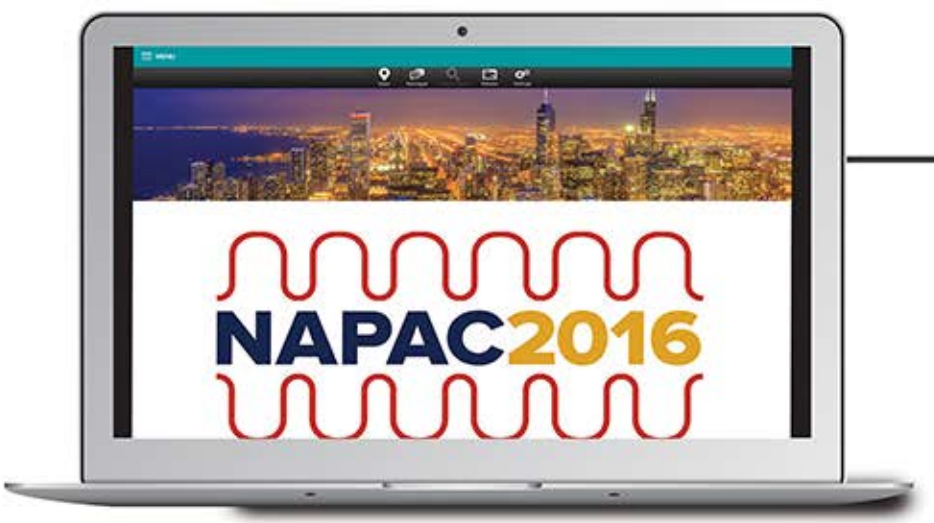
STEP 2

Find the presentation you want quickly and interact with the presentation slides by drawing on slides and highlighting text. Use the note-taking mode to type your notes next to each slide. Please note that you will need an internet connection to download all slides but can later view them and take notes on them without one. Access/Print the notes you take by clicking "My Notes" on the main screen or "Online Personal Summary" in the sidebar menu.



STEP 3

If you don't have a device that is able to download the app, you can use your **laptop**. As long as you have an internet connection, you can view the schedule, speaker information, and exhibitor information through your laptop via the following website link:
